

# かいてんしてかきましょう

右に1回カタンと回転させて書きましょう。

Three examples of a 3x3 grid rotation exercise. Each example shows a grid with shapes, a red arrow indicating a 90-degree clockwise rotation, a large grey arrow pointing to the right, and an empty 3x3 grid for the result.

**Example 1:** The original grid contains a blue circle in the top-middle cell, a red circle in the middle-middle cell, a green triangle in the middle-right cell, and a blue triangle in the bottom-left cell. The result grid is empty.

**Example 2:** The original grid contains a green circle in the top-right cell, a blue circle in the middle-left cell, a green triangle in the middle-right cell, and a red circle in the bottom-middle cell. The result grid is empty.

**Example 3:** The original grid contains a blue triangle in the top-middle cell, a red circle in the top-right cell, a red triangle in the middle-left cell, a green triangle in the middle-middle cell, and a green circle in the bottom-left cell. The result grid is empty.
